A "Buy Now for Prosperity" can paign has swept over the States and is finding its way into Canada. People are being urged to "loosen up" on their dimes. A potent argument applying to United States, states that 15 cents a day (presumably extra) that every wage-earner spends, would release capital to hire 1,000,-000 employed at \$6.25 a day. The idea has had rapid and rosy results already, it is stated. It is said that presidents of twenty-three railroads have co-operated and are placarding all trains with slogans; that street cars, bill boards, picture houses, etc. are drumming in the idea of the 15 cents extra a day. GAME DEPLETION

Benj. Lawton, Alberta game co oner, is credited with the state ment that wild water fowl have un-dergone a 50 per cent. depletion with in the past two years.

In view of this situation it behooves sportsmen not only in Alberta but over the entire continent to take stock of the outlook right now. Every effort should be made next year to secure some fairly accurate estimate of the wild fowl, and if the danger of depletion is so acute as it appears and as Mr. Farley hints, then heroid measures should be taken. In Alberta we have brought back our prairie chicken to very satisfactory numbers by means of closed seasons. If closed seasons will do the same for wild ducks, then that is the course to follow. Alberta is made a more colorful and more pleasing Province in which to live by reason of the wild game, and especially the wild ducks which each fall throng our lakes and rivers. It would be well nigh a tragedy were they to be wiped out here as they have been in eastern section of the continent.-Lethbridge Herald

A Calgary newspaper man tells a story of the old days, when the city had not reached its present high de-gree of sanitation. There was a certain street given over to rooming houses in which the most ferocious brand of bed bug carried on his night ly labors. A loud wail of protest went up, the echoes of which reached the newspaper world. A reporter was sent scurrying forth to get the ow-down. When he turned in his story, the boss shuddered at the raw of the Ontario Department of Agri-culture for 1930. The exceptional that he not permit it to appear on the pages of his refined journal.
